

Bringing you a better Sainsbury's

Sainsbury's would like to make your Colton store even better.

We would like to extend the store to make more room for your favourite products and expand the range of goods we have on offer.

Have your say

Sainsbury's will submit a planning application in the autumn, but before we do we would like to know what you think.

Please fill in a feedback form and freepost it to the address provided, or post it in the ballot box.

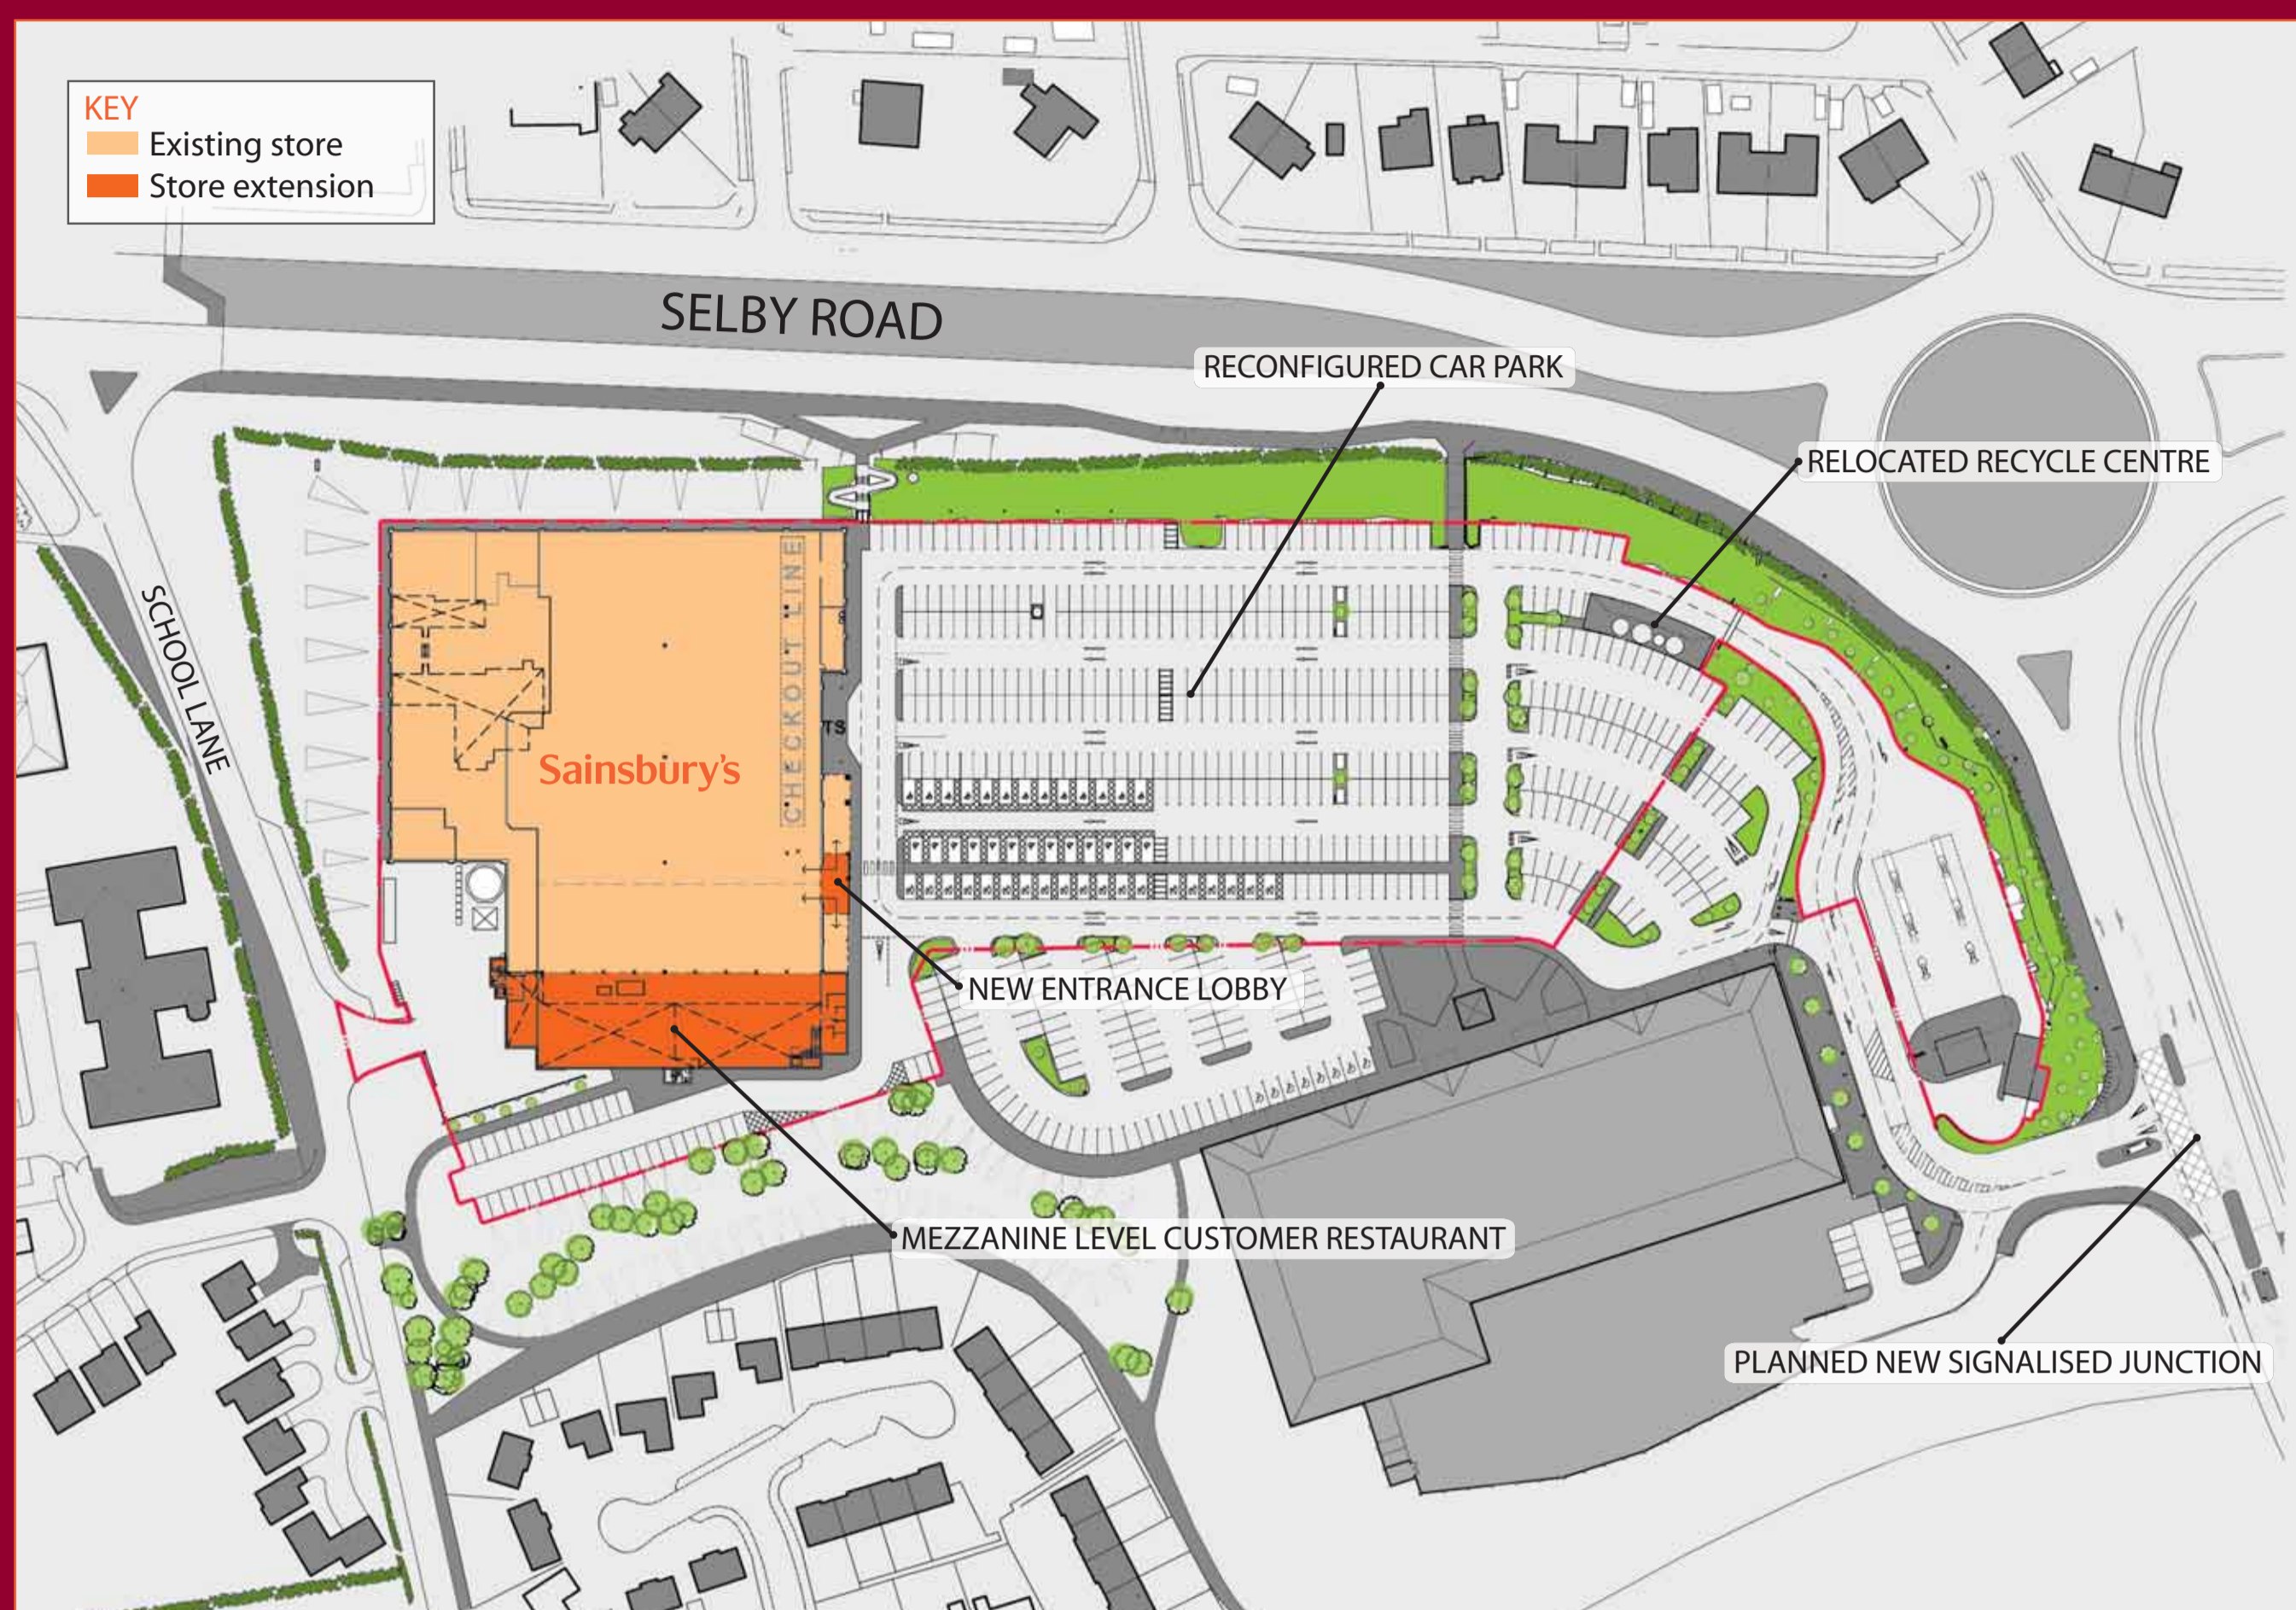

If you have any further questions or require more information, please contact us on **0113 246 9243** or lee.wright@localdialogue.com.

The proposals

Our preliminary plans include:

- 14,000 sq ft of extra sales space
- Up to 60 new jobs for local people
- A new customer restaurant, on a mezzanine level
- Relocated recycling facility
- More food and non-food items
- A modern, glazed lobby area
- An improved car park layout
- More disabled and parent and child car parking spaces

If planning permission is granted, work could begin next year and be completed by 2012.

The store will remain open throughout construction.
